Littelfuse to Host Webinar on Arc-Flash Protection

Free webinar will include how to identify risks and choose the right arc-flash mitigation solutions

CHICAGO, February 6, 2019 — Littelfuse, Inc., a global manufacturer of leading technologies in circuit protection and power control, invites plant engineers, facility managers, and maintenance professionals to join our special arc-flash webinar on how to cost-effectively protect against catastrophic arc-flash events. The [webinar](#) will take place on Tuesday, February 26, 2019 from 1:00 PM to 2:00 PM Central Standard Time.

Attendees will learn:

- Methods available to help identify the risk of arc flash within your system
- How to choose the right arc-flash mitigation solutions to extend the life of your equipment
- Ways to increase working safely beyond the essential Personal Protective Equipment (PPE) suit
- A real-life example of how a few thousand-dollar investment helped a customer avoid an \$800,000 catastrophic arc-flash event

The webinar is free, and attendees will have an opportunity to ask questions in a live Q&A session after the presentation. To sign up, visit the arc-flash webinar [registration page](#).
