#### 1. Summary of Significant Accounting Policies and Other Information

#### Nature of Operations

Littelfuse, Inc. and subsidiaries (the "Company") design, manufacture, and sell circuit protection devices for use in the automotive, electronics, and industrial markets throughout the world. The Company is one of the world's leading suppliers of circuit protection products for the electronics, automotive, and industrial markets, with expanding platforms in sensors and power control components and modules. In addition to circuit protection products and solutions, the Company offers electronic reed switches and sensors, automotive sensors for comfort and safety systems and a comprehensive line of highly reliable electromechanical and electronic switch and control devices for commercial and specialty vehicles, as well as protection relays and power distribution centers for the safe control and distribution of electricity. The Company has a network of global engineering centers and labs that develop new products enhancements, provides customer application support and test products for safety, reliability, and regulatory compliance. The Company's devices protect products in virtually every market that uses electrical energy, from consumer electronics to automobiles to industrial equipment.

#### **Basis of Presentation**

The Company's accompanying unaudited Consolidated Financial Statements have been prepared in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and disclosures normally included in the consolidated balance sheet, statements of net income and comprehensive income and cash flows prepared in conformity with U.S. GAAP have been condensed or omitted as permitted by such rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. They have been prepared in accordance with accounting policies described in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, which should be read in conjunction with the disclosures therein. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal, recurring nature. Operating results for interim periods are not necessarily indicative of annual operating results.

#### Goodwill and Indefinite-Lived Intangible Assets

The Company annually tests goodwill and indefinite-lived intangible assets for impairment on the first day of its fiscal fourth quarter or at other dates if there is an event or change in circumstances that indicates the asset may be impaired. Management determines the fair value of each of its reporting units by using a discounted cash flow model (which includes forecasted five-year income statement and working capital projections, a market-based weighted average cost of capital and terminal values after five years) to estimate market value. In addition, the Company compares its derived enterprise value on a consolidated basis to the Company's market capitalization as of its test date to ensure its derived value approximates the market value of the Company when taken as a whole.

Factors the Company considers important when performing the impairment tests, which could result in changes to its estimates, include underperformance relative to historical or projected future operating results and declines in acquisitions and trading multiples. Due to the diverse end user base and non-discretionary product demand, the Company does not believe its future operating results will vary significantly relative to its historical and projected future operating results. However, it is possible that impairment charges could be recognized for the relays reporting unit if there are declines in profitability or projected future operating results due to changes in volume, market pricing, cost, or the business environment. As of the most recent annual test conducted on October 2, 2016, the Company concluded the fair value of the relays reporting unit exceeded its carrying value of invested capital and therefore, no potential goodwill impairment existed. As of the 2016 annual test date, the relays reporting unit had \$41.4 million of goodwill and intangible assets and the excess of fair value over the carrying value of invested capital was 15%. As of April 1, 2017, there were no events or circumstances that indicate the Relays intangible assets were impaired.

## Recently Adopted Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-11 – "Inventory (Topic 330): Simplifying the Measurement of Inventory," which simplifies the measurement of inventory by requiring inventory to be measured at the lower of cost and net realizable value. The update is effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. The Company adopted the new standard on January 1, 2017. The adoption of the update did not have a material impact on the Company's consolidated financial statements. As a result of the adoption of the update, inventories are stated at the lower of cost or net realizable value. Cost is principally determined using the first-in, first-out method. The Company maintains excess and obsolete allowances against inventory to reduce the carrying value to the expected net realizable value. These allowances are based upon a combination of factors including historical sales volume, market conditions, lower of cost or market analysis and expected realizable value of the inventory.

In March 2016, the FASB issued ASU No. 2016-09 – "Improvements to Employee Share-Based Payment Accounting," which amends ASC 718, "Compensation – Stock Compensation." The update simplifies several aspects of the accounting for employee share-based payment transactions, including accounting for income taxes, forfeitures, and statutory withholding requirements, as well as classification in the Consolidated Statements of Cash Flows. The update is effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. The Company adopted the new standard on January 1, 2017. As a result of the adoption, on a prospective basis, the Company recognized \$0.5 million of excess tax benefits from stock-based compensation as a discrete item in income tax expense for the three months ended April 1, 2017. Historically, these amounts were recorded as additional paid-in capital. The Company also elected to apply the change prospectively to the Consolidated Statement of Cash Flows. As a result, on a prospective basis, share-based payments will be reported as operating activities in the Consolidated Statement of Cash Flows. The Company elected not to change its policy on accounting for forfeitures and will continue to estimate a requisite forfeiture rate. Additional amendments to the accounting for income taxes and minimum statutory withholding requirements had no impact on the results of operations.

#### Recently Issued Accounting Standards

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers" (Topic 606) which supersedes the revenue recognition requirements in ASC 605, "Revenue Recognition." This ASU provides a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most current revenue recognition guidance. The guidance permits two implementation approaches, one requiring retrospective application of the new standard with restatement of prior years and one requiring prospective application of the new standard with disclosure of results under old standards. In August, 2015, the FASB issued ASU No. 2015-14, which postponed the effective date of ASU No. 2014-09 to fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted on the original effective date of fiscal years beginning after December 15, 2016. The Company is in the process of performing its initial assessment of the potential impact on its consolidated financial statements and has not concluded on its adoption methodology. While the Company is currently assessing the impact of the new standards, the Company's revenue is primarily generated from the sale of finished products to customers. Those sales predominantly contain a single delivery element and revenue is recognized at a single point in time when ownership, risks, and rewards transfer. These are largely un-affected by the new standard. The Company does not expect this new guidance to have a material impact on the amount of overall sales recognized; however, the timing of sales on certain projects may be affected. The Company has not yet quantified this potential impact.

In February 2016, the FASB issued ASU No. 2016-02, "Leases" (Topic 842). This ASU requires lessees to recognize, on the balance sheet, assets and liabilities for the rights and obligations created by leases of greater than twelve months. The accounting by lessors will remain largely unchanged. The ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted. Adoption will require a modified retrospective transition. The Company is currently evaluating the impact of this ASU on its consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, "Intangibles-Goodwill and Other" (Topic 350). This ASU modifies the concept of impairment from the condition that exists when the carrying amount of goodwill exceeds its implied fair value to the condition that exists when the carrying amount of a reporting unit exceeds its fair value. An entity no longer will determine goodwill impairment by calculating the implied fair value of goodwill by assigning the fair value of a reporting unit to all of its assets and liabilities as if that reporting unit had been acquired in a business combination. Because the update will eliminate Step 2 from the goodwill impairment test, it should reduce the cost and complexity of evaluating goodwill for impairment. This ASU is effective for annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2020, with early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company expects to adopt the new standard in 2017.

#### 2. Acquisitions

The Company accounts for acquisitions using the acquisition method in accordance with ASC 805, "Business Combinations," in which assets acquired and liabilities assumed are recorded at fair value as of the date of acquisition. The operating results of the acquired business are included in the Company's consolidated financial statements from the date of the acquisition.

#### Monolith

In December 2015, the Company invested \$3.5 million in the preferred stock of Monolith Semiconductor Inc. ("Monolith"), a U.S. start-up company developing silicon carbide technology, which represented approximately 12% of the common stock of Monolith on an as-converted basis. The Company accounted for its investment in Monolith under the cost method with any changes in value recorded in other comprehensive income. The value of the Monolith investment was \$3.5 million at December 31, 2016.

On February 28, 2017, pursuant to a Securities Purchase Agreement between the Company and the stockholders of Monolith and conditioned on Monolith achieving a product development milestone and other provisions, the Company acquired approximately 62% of the outstanding common stock of Monolith for \$15 million. The Securities Purchase Agreement includes provisions whereby the Company will acquire the remaining outstanding stock of Monolith ("non-controlling interest") at a time or times based on Monolith meeting certain technical and sales targets. Consideration for the additional investment(s) will range from \$1.0 million to \$10 million and will be paid no later than June 30, 2019.

The additional investment resulted in the Company gaining control of Monolith and was accounted for as a step-acquisition with the fair value of the original investment immediately before the acquisition estimated to be approximately \$3.5 million. As the fair value of the investment immediately prior to the transaction equaled the carrying value, there was no impact on the Company's consolidated statement of net income. As the Securities Purchase Agreement includes an obligation of the Company to mandatorily redeem the non-controlling interest for cash, the fair value of the non-controlling interest was recognized as a liability on the Company's consolidated balance sheet.

Commencing March 1, 2017, Monolith was reflected as a consolidated subsidiary within the Company's consolidated financial statements. Had the acquisition occurred as of January 1, 2017, the impact on the Company's consolidated results of operations would not have been material.

The following table summarizes the preliminary purchase price allocation of the fair value of assets acquired and liabilities assumed in the Monolith acquisition:

(in thousands)	 nase Price ocation
Total purchase consideration:	
Original investment	\$ 3,500
Cash, net of cash acquired	14,172
Fair value of commitment to purchase non-controlling interest	9,000
Total purchase consideration	\$ 26,672
Allocation of consideration to assets acquired and liabilities assumed:	
Current assets, net	\$ 891
Property, plant, and equipment	789
Patented and unpatented technologies	6,720
Non-compete agreement	140
Goodwill	20,641
Current liabilities	(639)
Other non-current liabilities	(1,870)
	\$ 26,672

All Monolith goodwill, other assets and liabilities were recorded in the Electronics segment and reflected in the United States geographic area. The goodwill resulting from this acquisition consists largely of the Company's expected future product sales and synergies from combining Monolith's products and technology with the Company's existing electronics product portfolio. Goodwill for the above acquisition is not expected to be deductible for tax purposes.

#### ON Portfolio

On August 29, 2016, the Company acquired certain assets of select businesses (the "ON Portfolio") of ON Semiconductor Corporation for \$104.0 million. The Company funded the acquisition with available cash and proceeds from its credit facility. The acquired business, which is included in the Electronics segment, consists of a product portfolio that includes transient voltage suppression ("TVS") diodes, switching thyristors and insulated gate bipolar transistors ("IGBTs") for automotive ignition applications. The acquisition expands the Company's offerings in power semiconductor applications as well as increases its presence in the automotive electronics market. The ON Portfolio products have strong synergies with the Company's existing circuit protection business and will strengthen its channel partnerships and customer engagement.

The following table summarizes the preliminary purchase price allocation of the fair value of assets acquired and liabilities assumed in the ON Portfolio acquisition:

(in thousands)	chase Price llocation
Total purchase consideration:	
Cash	\$ 104,000
Allocation of consideration to assets acquired and liabilities assumed:	
Current assets, net	\$ 4,816
Customer relationships	31,800
Patented and unpatented technologies	8,800
Non-compete agreement	2,500
Goodwill	56,084
	\$ 104,000

All the ON Portfolio business goodwill and other assets were recorded in the Electronics segment and are reflected in the Americas and Europe geographic areas. The customer relationships are being amortized over 13.5 years. The patented and unpatented technologies are being amortized over 6-8.5 years. The non-compete agreement is being amortized over 4 years. The goodwill resulting from this acquisition consists largely of the Company's expected future product sales and synergies from combining the ON Portfolio products with the Company's existing power semiconductor product portfolio. \$7.3 million of goodwill for the above acquisition is expected to be deductible for tax purposes.

As required by purchase accounting rules, the Company recorded a \$0.7 million step-up of inventory to its fair value as of the acquisition date based on the preliminary valuation. All of the step-up was amortized as a non-cash charge to cost of goods sold during 2016, as the acquired inventory was sold, and reflected as other non-segment costs.

#### Menber's

On April 4, 2016, the Company completed the acquisition of Menber's S.p.A. ("Menber's") headquartered in Legnago, Italy for \$19.2 million, net of acquired cash and after settlement of a working capital adjustment. The Company funded the acquisition with cash on hand and borrowings under the Company's revolving credit facility. The acquired business is part of the Company's commercial vehicle product business within the Automotive segment and specializes in the design, manufacturing, and selling of manual and electrical high current switches and trailer connectors for commercial vehicles. The acquisition expands the Company's commercial vehicle products business globally.

The following table summarizes the preliminary purchase price allocation of the fair value of assets acquired and liabilities assumed in the Menber's acquisition:

(in thousands)	 nase Price ocation
Total purchase consideration:	
Cash, net of acquired cash	\$ 19,162
Preliminary allocation of consideration to assets acquired and liabilities assumed:	
Current assets, net	\$ 12,919
Property, plant, and equipment	1,693
Customer relationships	3,050
Patented and unpatented technologies	224
Trademarks and tradenames	1,849
Goodwill	8,091
Current liabilities	(7,220)
Other non-current liabilities	(1,444)
	\$ 19,162

All Menber's goodwill and other assets and liabilities were recorded in the Automotive segment and reflected in the Europe geographic area. The customer relationships are being amortized over 10 years. The patented and unpatented technologies are being amortized over 5 years. The trademarks and tradenames are being amortized over 10 years. The goodwill resulting from this acquisition consists largely of the Company's expected future product sales and synergies from combining Menber's products with the Company's existing automotive product portfolio. Goodwill for the above acquisition is not expected to be deductible for tax purposes.

As required by purchase accounting rules, the Company recorded a \$0.2 million step-up of inventory to its fair value as of the acquisition date based on the preliminary valuation. The step-up was amortized as a non-cash charge to cost of goods sold during 2016, as the acquired inventory was sold, with the charge reflected as other non-segment costs.

#### PolySwitch

On March 25, 2016, the Company acquired 100% of the circuit protection business ("PolySwitch") of TE Connectivity Ltd. for \$348.3 million, net of acquired cash and after settlement of certain post-closing adjustments. At April 1, 2017, \$344.5 million of the \$348.3 million purchase price has been paid with the remaining consideration expected to be paid in the second quarter of 2017. The Company funded the acquisition with available cash on hand and borrowings under the Company's revolving credit facility. The PolySwitch business, which is split between the Automotive and Electronics segments, has a leading position in polymer based resettable circuit protection devices, with a strong global presence in the automotive, battery, industrial, communications and mobile computing markets. PolySwitch has manufacturing facilities in Shanghai and Kunshan, China and Tsukuba, Japan. The acquisition allows the Company to strengthen its global circuit protection product portfolio, as well as strengthen its presence in the automotive electronics and battery end markets. The acquisition also significantly increases the Company's presence in Japan.

The following table summarizes the purchase price allocation of the fair value of assets acquired and liabilities assumed in the PolySwitch acquisition:

(in thousands)	:	Purchase Price Allocation
Total purchase consideration:		
Original consideration	\$	350,000
Post closing consideration adjustment received		(1,708)
Acquired cash		(3,810)
Acquired cash to be returned to seller		3,810
Total purchase consideration	\$	348,292
Allocation of consideration to assets acquired and liabilities assumed:		
Current assets, net	\$	60,228
Property, plant, and equipment		51,613
Land lease		4,290
Patented and unpatented technologies		56,425
Customer relationships		39,720
Goodwill		165,088
Other long-term assets		11,228
Current liabilities		(35,280)
Other non-current liabilities		(5,020)
	\$	348,292

All PolySwitch goodwill and other assets and liabilities were recorded in the Electronics and Automotive segments and reflected in all geographic areas. The customer relationships are being amortized over 15 years. The patented and unpatented technologies are being amortized over 10 years. The goodwill resulting from this acquisition consists largely of the Company's expected future product sales and synergies from combining PolySwitch products with the Company's existing automotive and electronics product portfolio. \$103.8 million and \$61.3 million of the goodwill for the above acquisition has been assigned to the Electronics and Automotive segments, respectively, with \$64.9 million expected to be deductible for tax purposes.

As required by purchase accounting rules, the Company recorded a \$6.9 million step-up of inventory to its fair value as of the acquisition date based on the preliminary valuation. The step-up was amortized as a non-cash charge to cost of goods sold during the second quarter of 2016, as the acquired inventory was sold, and reflected as other non-segment costs.

#### Pro Forma Results

The following table summarizes, on a pro forma basis, the combined results of operations of the Company and the acquired PolySwitch and the ON Portfolio businesses for the three months ended April 2, 2016 as though the acquisitions had occurred as of January 3, 2016. The Company has not included pro forma results of operations for Menber's or Monolith as these results were not material to the Company. The pro forma amounts presented are not necessarily indicative of either the actual consolidated results had the PolySwitch or ON Portfolio acquisitions occurred as of January 3, 2016 or of future consolidated operating results.

(in thousands)		ree Months led April 2, 2016
	Φ.	
Net sales	2	268,775
Income before income taxes		34,081
Net income		27,508
Net income — basic		1.23
Net income — diluted		1.22

Pro forma results presented above primarily reflect: (i) incremental depreciation relating to fair value adjustments to property, plant, and equipment; (ii) amortization adjustments relating to fair value estimates of intangible assets; (iii) incremental interest expense on assumed indebtedness; and (iv) additional cost of goods sold relating to the capitalization of gross profit as part of purchase accounting recognized for purposes of the pro forma as if it was recognized during the Company's first quarter of 2016. Pro forma adjustments described above have been tax affected using the Company's effective rate during the respective periods.

#### 3. Inventories

The components of inventories at April 1, 2017 and December 31, 2016 are as follows:

(in thousands)		<b>April 1, 2017</b>		April 1, 2017		April 1, 2017 December 31, 20		
Raw materials	\$	33,003	\$	32,231				
Work in process		24,200		23,354				
Finished goods		61,108		58,478				
Total	\$	118,311	\$	114,063				

#### 4. Debt

The carrying amounts of debt at April 1, 2017 and December 31, 2016 are as follows:

(in thousands)	<b>April 1, 2017</b>	<b>December 31, 2016</b>
Revolving credit facility	\$ —	\$ 112,500
Term loan	118,750	120,313
Entrusted loan	2,903	3,522
Euro Senior Notes, Series A due 2023	125,616	122,313
Euro Senior Notes, Series B due 2028	101,996	99,314
USD Senior Notes, Series A due 2022	25,000	_
USD Senior Notes, Series B due 2027	100,000	_
Unamortized debt issuance costs	(3,742)	(3,820)
Total debt	470,523	454,142
Less: Current maturities	(6,250)	(6,250)
Total long-term debt	\$ 464,273	\$ 447,892

#### Revolving Credit Facility / Term Loan

On March 4, 2016, the Company entered into a new five year credit agreement with a group of lenders for up to \$700.0 million. The new credit agreement consists of an unsecured revolving credit facility of \$575.0 million and an unsecured term loan credit facility of up to \$125.0 million. In addition, the Company has the ability, from time to time, to increase the size of the revolving credit facility and the term loan facility by up to an additional \$150.0 million, in the aggregate, in each case in minimum increments of \$25.0 million, subject to certain conditions and the agreement of participating lenders. For the term loan credit facility, the Company is required to make quarterly principal payments of \$1.6 million through March 31, 2018 and \$3.1 million from June 30, 2018 through December 31, 2020 with the remaining balance due on March 4, 2021.

Outstanding borrowings under the credit agreement bear interest, at the Company's option, at either LIBOR, fixed for interest periods of one, two, three or six month periods, plus 1.00% to 2.00%, or at the bank's Base Rate, as defined, plus 0.00% to 1.00%, based upon the Company's Consolidated Leverage Ratio, as defined. The Company is also required to pay commitment fees on unused portions of the credit agreement ranging from 0.15% to 0.30%, based on the Consolidated Leverage Ratio, as defined. The credit agreement includes representations, covenants and events of default that are customary for financing transactions of this nature. The effective interest rate on outstanding borrowings under the credit facility was 2.48% at April 1, 2017.

As of April 1, 2017, the Company had \$0.1 million outstanding in letters of credit and had available \$574.9 million of borrowing capacity under the revolving credit facility. At April 1, 2017, the Company was in compliance with all covenants under the credit agreement.

#### Senior Notes

On December 8, 2016, the Company entered into a Note Purchase Agreement, pursuant to which the Company issued and sold €212 million aggregate principal amount of senior notes in two series. The funding date for the Euro denominated senior notes occurred on December 8, 2016 for €117 million in aggregate amount of 1.14% Senior Notes, Series A, due December 8, 2023, and €95 million in aggregate amount of 1.83% Senior Notes, Series B due December 8, 2028 (together, the "Euro Senior Notes"). Interest on the Euro Senior Notes is payable semiannually on June 8 and December 8, commencing June 8, 2017.

On December 8, 2016, the Company entered into a Note Purchase Agreement, pursuant to which the Company issued and sold \$125 million aggregate principal amount of senior notes in two series. On February 15, 2017, \$25 million in aggregate principal amount of 3.03% Senior Notes, Series A, due February 15, 2022, and \$100 million in aggregate principal amount of 3.74% Senior Notes, Series B, due February 15, 2027 (together, the "U.S. Senior Notes," and together with the Euro Senior Notes, the "Senior Notes") were funded. Interest on the U.S. Senior Notes will be payable semiannually on February 15 and August 15, commencing August 15, 2017.

The Senior Notes have not been registered under the Securities Act, or applicable state securities laws. The Senior Notes are general unsecured senior obligations and rank equal in right of payment with all existing and future unsecured unsubordinated indebtedness of the Company.

The Senior Notes are subject to certain customary covenants, including limitations on the Company's ability, with certain exceptions, to engage in mergers, consolidations, asset sales and transactions with affiliates, to engage in any business that would substantially change the general business of the Company, and to incur liens. In addition, the Company is required to satisfy certain financial covenants and tests relating to, among other matters, interest coverage and leverage. At April 1, 2017, the Company was in compliance with all covenants under the revolving credit facility and the Senior Notes.

The Company may redeem the Senior Notes upon the satisfaction of certain conditions and the payment of a make-whole amount to noteholders, and are required to offer to repurchase the Senior Notes at par following certain events, including a change of control.

#### Entrusted Loan

During 2014, the Company entered into an entrusted loan arrangement ("Entrusted Loan") of Chinese renminbi 110.0 million (approximately U.S. \$17.9 million) between two of its China legal entities, Littelfuse Semiconductor ("Wuxi") Company (the "lender") and Suzhou Littelfuse OVS Ltd. (the "borrower"), utilizing Bank of America, N.A., Shanghai Branch as agent. Direct borrowing and lending between two commonly owned commercial entities was strictly forbidden at the time under China's regulations requiring the use of a third party agent to enable loans between Chinese legal entities. As a result, the Entrusted Loan is reflected as both a long-term asset and long-term debt on the Company's Consolidated Balance Sheets and is reflected in the investing and financing activities in its Consolidated Statements of Cash Flows. Interest expense and interest income will be recorded between the lender and borrower with no net impact on the Company's Consolidated Statements of Income since the amounts will be offsetting. The loan interest rate per annum is 5.25%. The Entrusted Loan is used to finance the operation and working capital needs of the borrower and matures in November 2019. The balance of the Entrusted Loan was Chinese renminbi 20.0 million (approximately U.S. \$2.9 million) at April 1, 2017.

#### 5. Fair Value of Assets and Liabilities

Applicable accounting literature establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Applicable accounting literature defines levels within the hierarchy based on the reliability of inputs as follows:

- Level 1—Valuations based on unadjusted quoted prices for identical assets or liabilities in active markets;
- Level 2—Valuations based upon quoted prices for *similar* instruments, prices for identical or similar instruments in markets that are not active, or model-derived valuations, all of whose significant inputs are observable, and
- Level 3—Valuations based upon one or more significant unobservable inputs.

Following is a description of the valuation methodologies used for instruments measured at fair value and their classification in the valuation hierarchy.

#### Investments

Investments in equity securities listed on a national market or exchange are valued at the last sales price and are classified within Level 1 of the valuation hierarchy.

There were no changes during the quarter ended April 1, 2017 to the Company's valuation techniques used to measure asset and liability fair values on a recurring basis. As of April 1, 2017 and December 31, 2016, the Company did not hold any non-financial assets or liabilities that are required to be measured at fair value on a recurring basis.

The following table presents assets measured at fair value by classification within the fair value hierarchy as of April 1, 2017:

	Fair V	Value Measurements	Using	
	·	Significant		
	Quoted Prices in	Other	Significant	
	Active Markets for	Observable	Unobservable	
	Identical Assets	Inputs	Inputs	
(in thousands)	(Level 1)	(Level 2)	(Level 3)	Total
Investment in Polytronics	\$ 11,660	\$	\$	\$ 11,660

The following table presents assets measured at fair value by classification within the fair value hierarchy as of December 31, 2016:

	Fair <b>V</b>			
		Significant		
	Quoted Prices in	Other	Significant	
	Active Markets for	Observable	Unobservable	
	<b>Identical Assets</b>	Inputs	Inputs	
(in thousands)	(Level 1)	(Level 2)	(Level 3)	Total
Investment in Polytronics	\$ 10,435	\$	\$ —	\$ 10,435

In addition to the methods and assumptions used for the financial instruments recorded at fair value as discussed above, the following methods and assumptions are used to estimate the fair value of other financial instruments that are not marked to market on a recurring basis. The Company's other financial instruments include cash and cash equivalents, short-term investments, accounts receivable and its long-term debt. Due to their short-term maturity, the carrying amounts of cash and cash equivalents, short-term investments and accounts receivable approximate their fair values. The Company's revolving and term loan debt facilities' fair values approximate book value at April 1, 2017 and December 31, 2016, as the rates on these borrowings are variable in nature.

The carrying value and estimated fair values of the Company's Euro Senior Notes, Series A and Series B and USD Senior Notes, Series A and Series B, as of April 1, 2017 and December 31, 2016 are as follows:

	April 1, 2017			<b>December 31, 2016</b>				
(in thousands)	Carrying Value	F	Estimated Fair Value		Carrying Value		Estimated Fair Value	
Euro Senior Notes, Series A due 2023	\$ 125,616	\$	125,251	\$	122,313	\$	122,586	
Euro Senior Notes, Series B due 2028	101,996		101,037		99,314		99,230	
USD Senior Notes, Series A due 2022	25,000		24,817		_		_	
USD Senior Notes, Series B due 2027	100,000		99,208		_		_	

#### 6. Benefit Plans

The Company has company-sponsored defined benefit pension plans covering employees in the U.K., Germany, the Philippines, China, Japan, and France. The amount of the retirement benefits provided under the plans is based on years of service and final average pay.

The components of net periodic benefit cost for the three months ended April 1, 2017 and April 2, 2016 are as follows:

	For the Three Months Ended				
(in thousands)		April 1, 2017		April 2, 2016	
Components of net periodic benefit cost:					
Service cost	\$	408	\$	332	
Interest cost		360		497	
Expected return on plan assets		(476)		(520)	
Amortization of prior service (credit)		84		73	
Total cost of the plan		376		382	
Expected plan participants' contribution		_		_	
Net periodic benefit cost	\$	376	\$	382	

The expected return on pension assets is 4.5% and 4.9% in 2017 and 2016, respectively.

#### 7. Shareholders' Equity

Accumulated Other Comprehensive Income (Loss) ("AOCI"): The following table sets forth the changes in the components of AOCI by component for the three months ended April 1, 2017:

	posti liab recla	retirement bility and ssification	g	realized ains on	cı tra	Foreign urrency anslation	comj	umulated other orehensive
(in thousands)	aajus	stments <sup>(a)</sup>	inv	estments	au	justment	inco	ome (loss)
Balance at December 31, 2016	\$	(11,983)	\$	10,769	\$	(73,365)	\$	(74,579)
Activity in the period		(282)		947		4,962		5,627
Balance at April 1, 2017	\$	(12,265)	\$	11,716	\$	(68,403)	\$	(68,952)

(a) The balances at April 1, 2017 and December 31, 2016 are net of taxes of \$1.2 million and \$1.1 million, respectively.

#### 8. Income Taxes

The effective tax rate for the first quarter of 2017 was 18.0% compared to an effective tax rate of 28.8% in the first quarter of 2016. The effective tax rates for both the first quarter of 2017 and the first quarter of 2016 are lower than the U.S. statutory tax rate primarily due to income earned in lower tax jurisdictions. Further, the effective tax rate for the first quarter of 2017 was lower than the effective tax rate for the first quarter of 2016 primarily due to a larger amount of income earned in lower tax jurisdictions in the first quarter of 2017 compared to the first quarter of 2016.

#### 9. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share:

	F	For the Three Months Ended				
(in thousands, except per share amounts)	Apri	il 1, 2017	Apı	ril 2, 2016		
Numerator:						
Net income as reported	\$	38,891	\$	19,289		
Denominator:						
Weighted average shares outstanding						
Basic		22,748		22,438		
Effect of dilutive securities		241		183		
Diluted		22,989		22,621		
Earnings Per Share:						
Basic earnings per share	\$	1.71	\$	0.86		
Diluted earnings per share	\$	1.69	\$	0.85		

No potential shares of common stock attributable to stock options were excluded from the earnings per share calculation because their effect would be antidilutive for the three months ended April 1, 2017 while 21,888 shares were excluded for the three months ended April 2, 2016.

## 10. Segment Information

The Company and its subsidiaries design, manufacture and sell components and modules for circuit protection, power control and sensing throughout the world. The Company reports its operations by the following segments: Electronics, Automotive, and Industrial. An operating segment is defined as a component of an enterprise that engages in business activities from which it may earn revenues and incur expenses, and about which separate financial information is regularly evaluated by the Chief Operating Decision Maker ("CODM") in deciding how to allocate resources. The CODM is the Company's President and Chief Executive Officer ("CEO"). The CODM allocates resources to and assesses the performance of each operating segment using information about its revenue and operating income (loss) before interest and taxes, but does not evaluate the operating segments using discrete balance sheet information.

Sales, marketing, and research and development expenses are charged directly into each operating segment. Manufacturing, purchasing, logistics, customer service, finance, information technology, and human resources are shared functions that are allocated back to the three operating segments. The Company does not report inter-segment revenue because the operating segments do not record it. Certain expenses, determined by the CODM to be strategic in nature and not directly related to segments current results, are not allocated but identified as "Other". Additionally, the Company does not allocate interest and other income, interest expense, or taxes to operating segments. These costs are not allocated to the segments, as management excludes such costs when assessing the performance of the segments. Although the CODM uses operating income (loss) to evaluate the segments, operating costs included in one segment may benefit other segments. Except as discussed above, the accounting policies for segment reporting are the same as for the Company as a whole.

- Electronics Segment: Provides circuit protection components for overcurrent and overvoltage protection, as well as sensor components and modules to leading global manufacturers of a wide range of electronic products. The segment covers a broad range of end markets, including consumer electronics, telecommunications equipment, medical devices, lighting products, and white goods. The Electronics segment supplies circuit protection, sensing and control products to various leading manufacturers. The Electronics segment has one of the broadest product offerings in the industry including fuses and protectors, positive temperature coefficient ("PTC") resettable fuses, varistors, polymer electrostatic discharge ("ESD") suppressors, discrete TVS diodes, TVS diode arrays protection and switching thyristors, gas discharge tubes, power switching components, fuseholders, reed switch and sensor assemblies, IGBT blocks, and related accessories.
- Automotive Segment: Provides circuit protection and sensor products to the worldwide automotive original equipment manufacturers ("OEM") and
  parts distributors of passenger automobiles, trucks, buses, and off-road equipment. In addition, the Company supplies heavy duty power distribution
  modules, switches and relays to the commercial vehicle industry. The Company also sells its fuses, including blade fuses and high current fuses,
  battery cable protectors, and varistors, in the automotive replacement parts market. The Company also supplies wiring harness manufacturers and
  auto parts suppliers worldwide.
- Industrial Segment: Provides circuit protection products for industrial and commercial customers. Products include power fuses and other circuit protection devices, including protection and time delay relays, which are used in commercial and industrial buildings and large equipment such as HVAC systems, elevators, and machine tools. The Company also supplies industrial ground fault protection in mining and other large industrial operations.

Segment information is summarized as follows:

	For the Three Months Ended				
(in thousands)	Ap	ril 1, 2017	April 2, 2016		
Net sales	<u> </u>				
Electronics	\$	153,767	\$	98,796

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Cautionary Statement Regarding Forward-Looking Statements Under the Private Securities Litigation Reform Act of 1995 ("PSLRA").

Certain statements in this section and other parts of this Quarterly Report on Form 10-Q may constitute "forward-looking statements" within the meaning of the federal securities laws and are entitled to the safe-harbor provisions of the PSLRA. These statements include statements regarding the Company's future performance, as well as management's expectations, beliefs, intentions, plans, estimates or projections relating to the future. Such statements can be identified by the use of forward-looking terminology such as "believes," "expects," "may," "estimates," "will," "should," "plans" or "anticipates" or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy, although not all forward-looking statements contain such terms. The Company cautions that forward-looking statements, which speak only as of the date they are made, are subject to risks, uncertainties and other factors, and actual results and outcomes may differ materially from those indicated or implied by the forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, risks relating to product demand and market acceptance, economic conditions, the impact of competitive products and pricing, product quality problems or product recalls, capacity and supply difficulties or constraints, coal mining exposures reserves, failure of an indemnification for environmental liability, exchange rate fluctuations, commodity price fluctuations, the effect of the Company's accounting policies, labor disputes, restructuring costs in excess of expectations, pension plan asset returns less than assumed, integration of acquisitions, uncertainties related to political or regulatory changes, and other risks which may be detailed in the Company's other Securities and Exchange Commission filings, including those set forth under Item 1A. "Risk Factors" of the Company's Annual Report on Form 10-K for the year ended December 31, 2016. The Company does not undertake any obligation to upd

This report, including the Management's Discussion and Analysis of Financial Condition and Results of Operations, should be read in conjunction with information provided in the financial statements and the related Notes thereto appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is designed to provide information that is supplemental to, and should be read together with, the consolidated financial statements and the accompanying notes. Information in MD&A is intended to assist the reader in obtaining an understanding of (i) the consolidated financial statements, (ii) the changes in certain key items within those financial statements from year-to-year, (iii) the primary factors that contributed to those changes, and (iv) any changes in known trends or uncertainties that we are aware of and that may have a material effect on future performance. In addition, MD&A provides information about the Company's segments and how the results of those segments impact the results of operations and financial condition as a whole.

#### **Executive Overview**

Littelfuse is one of the world's leading suppliers of circuit protection products for the electronics, automotive, and industrial markets, with expanding platforms in sensor and power control components and modules. In addition to circuit protection products and solutions, the Company offers electronic reed switches and sensors, automotive sensors for comfort and safety systems and a comprehensive line of highly reliable electromechanical and electronic switch and control devices for commercial and specialty vehicles, as well as protection relays and power distribution centers for the safe control and distribution of electricity. The Company has a network of global engineering centers and labs that develop new products and product enhancements, provides customer application support and test products for safety, reliability, and regulatory compliance. The Company's devices protect products in virtually every market that uses electrical energy, from various electronic devices to automobiles to industrial equipment.

The Company conducts its business through three reportable segments, which are defined by markets and consist of Electronics, Automotive, and Industrial. The Company's customer base includes OEMs, Tier One automotive suppliers, and distributors.

#### **Executive Summary**

The Company experienced strong performance improvements in the first quarter of 2017 compared to the first quarter of 2016. For the first quarter of 2017, the Company recognized net sales of \$285.4 million compared to \$219.4 million in the first quarter of 2016. The increase of \$66.0 million, or 30.0%, reflects increased net sales of \$55.0 million, or 56%, in the Electronics segment and \$15.9 million, or 17%, in the Automotive segment, partially offset by decreased net sales of \$4.8 million, or 17%, in the Industrial segment. The increased net sales in the Electronics and Automotive segments were primarily due to the impact of prior year acquisitions. The Company recognized net income of \$38.9 million, or \$1.69 per diluted share, in the first quarter of 2017 compared to net income of \$19.3 million, or \$0.85 per diluted share in the first quarter of 2016. Increased net income reflects the impacts of the prior year acquisitions on the current year results as well of a decrease in acquisition-related costs, coupled with a lower effective tax rate.

#### **Results of Operations**

The following table summarizes the Company's consolidated results of operations for the periods presented. The first quarter of 2017 includes approximately \$1.5 million of non-segment charges. These were primarily attributable to acquisition-related costs primarily related to legal and integration costs associated with the Company's acquisitions in 2016 of the ON Portfolio PolySwitch.

The first quarter of 2016 includes approximately \$9.2 million of other non-segment charges. These included \$6.2 million of acquisition-related costs primarily related to legal and integration costs associated with the Company's PolySwitch acquisition, \$1.6 million in impairment charges related to the closure of the Company's manufacturing facility in Denmark, \$1.0 million related to the Company's transfer of its reed sensor manufacturing operations from the U.S. and China to the Philippines and \$0.4 million related to internal legal restructuring costs.

	Three Mor	nths Ended		
(in thousands, except % change)	April 1, 2017	April 2, 2016	Change	% Change
Net sales	\$ 285,441	\$ 219,398	\$ 66,043	30%
Gross profit	113,650	87,155	26,495	30%
Operating expenses	64,798	54,727	10,071	18%
Operating income	48,852	32,428	16,424	51%
Income before income taxes	47,428	27,077	20,351	75%
Income taxes	8,537	7,788	749	10%
Net income	38,891	19,289	19,602	102%

#### Net Sales

Net sales increased \$66.0 million, or 30%, for the first quarter of 2017 compared to the first quarter of 2016, primarily due to a \$60.9 million increase from the prior year PolySwitch, ON Portfolio, and Menbers' acquisitions. Increased net sales in the Electronics segment of \$55.0 million and the Automotive segment of \$15.9 million were partially offset by a \$4.8 million decrease in the Industrial segment.

#### Gross Profit

Gross profit was \$113.7 million, or 39.8% of net sales, in the first quarter of 2017, compared to \$87.2 million, or 39.7% of net sales in the first quarter of 2016. Gross profit reflects the incremental net sales and associated profits related to the prior year acquisitions.

#### **Operating Expenses**

Total operating expense was \$64.8 million, or 22.7% of net sales, for the first quarter of 2017 compared to \$54.7 million, or 24.9% of net sales, for the first quarter of 2016. The increase in operating expenses of \$10.1 million is primarily due to incremental operating expenses related to the prior year acquisitions including increased selling costs and amortization of intangibles. The improvement in operating expenses as a percentage of net sales is due to operating efficiencies coupled with approximately \$7.8 million of acquisition-related charges incurred in 2016.

#### **Operating Income**

Operating income was \$48.9 million, or 17.1% of net sales, for the first quarter of 2017 compared to \$32.4 million, or 14.8% of net sales, for the first quarter of 2016. The increase in operating income is the result of the above-described increased net sales and associated margins partially offset by increased operating expenses. The improvement in operating income as a percentage of net sales reflects the impact of the prior year acquisitions costs on operating expenses.

#### Income Before Income Taxes

Income before income taxes was \$47.4 million, or 16.6% of net sales, for the first quarter of 2017 compared to \$27.1 million, or 12.3% of net sales, for the first quarter of 2016. In addition to the factors impacting comparative results for operating income, income before income taxes was impacted by favorable comparative foreign exchange partially offset by increased interest expense. The effect of foreign exchange rate changes on various foreign currency transactions worldwide was approximately \$1.6 million of income for the first quarter of 2017 compared to \$3.8 million of expense for the first quarter of 2016 and primarily reflects fluctuations in the euro and Philippine peso against the U.S. dollar. Interest expense was \$3.1 million in the first quarter of 2017 as compared to \$2.0 million in the first quarter of 2016, primarily reflecting increased borrowings.

#### Income Taxes

Income tax expense was \$8.5 million, or an effective tax rate of 18.0%, for the first quarter of 2017 compared to income tax expense of \$7.8 million, or an effective tax rate of 28.8%, for the first quarter of 2016. The effective tax rates for both the first quarter of 2017 and the first quarter of 2016 are lower than the U.S. statutory tax rate primarily due to income earned in lower tax jurisdictions. Further, the effective tax rate for the first quarter of 2017 was lower than the effective tax rate for the first quarter of 2016 primarily due to a larger amount of income earned in lower tax jurisdictions in the first quarter of 2017 compared to the first quarter of 2016.

#### **Segment Results of Operations**

The Company reports its operations by the following segments: Electronics, Automotive and Industrial. Segment information is described more fully in Note 10, Segment Information, of the Notes to Consolidated Financial Statements included in this Quarterly Report.

The following table is a summary of the Company's net sales by segment:

	Three Mo			
(in thousands)	April 1, 2017	April 2, 2016	Change	% Change
Electronics	\$ 153,767	\$ 98,796	\$ 54,97	71 56%
Automotive	107,839	91,933	15,90	06 17%
Industrial	23,835	28,669	(4,83	34) (17%)
Total	\$ 285,441	\$ 219,398	\$ 66,04	30%

#### **Electronics Segment**

The Electronics segment net sales increased \$55.0 million, or 56%, in the first quarter of 2017 compared to the first quarter of 2016 primarily due to \$41.5 million of incremental net sales related to the PolySwitch and ON Portfolio acquisitions in the prior year. Excluding the impact of the acquisitions, the increased Electronics segment net sales were primarily the result of increased net sales of passive and semiconductor products.

#### **Automotive Segment**

The Automotive segment net sales increased \$15.9 million, or 17%, in the first quarter of 2017 compared to the first quarter of 2016 primarily due to \$19.3 million of incremental net sales related to the PolySwitch and Menber's acquisitions in the prior year. The segment also experienced unfavorable foreign exchange impacts of \$1.7 million, primarly related to net sales denominated in euros and Chinese renminbi. Excluding the impact of prior year acquisitions and foreign currency, slight increases in net sales of passenger car products and commercial vehicle products were offset by a decrease in sensor net sales.

#### **Industrial Segment**

The Industrial segment net sales decreased \$4.8 million, or 17%, in the first quarter of 2017 compared to the first quarter of 2016 primarily due to the divestiture of two non-core product lines, one in the first quarter of 2016 and the other in the fourth quarter of 2016, and decreased net sales in the custom products operations.

#### **Geographic Net Sales Information**

Net sales by geography represent net sales to customer or distributor locations. The following table is a summary of the Company's net sales by geography:

		Three Mor	iths Ei	ıded		
(in millions)	Apr	il 2, 2017	Apı	il 1, 2016	Change	% Change
Americas	\$	98,025	\$	99,823	\$ (1,798)	(2%)
Europe		58,905		42,813	16,092	38%
Asia-Pacific		128,511		76,762	51,749	67%
Total	\$	285,441	\$	219,398	\$ 66,043	30%

#### Americas

Net sales in the Americas decreased \$1.8 million, or 2%, in the first quarter of 2017 compared to the first quarter of 2016. Increased net sales resulting from acquisitions in 2016 were more than offset by lower net sales of the Industrial segment's custom products and the Automotive segment's sensor products.

#### Europe

European net sales increased \$16.1 million, or 38%, in the first quarter of 2017 compared to the first quarter of 2016 primarily due to a \$15.0 million increase from prior year acquisitions partially offset by \$1.7 million in unfavorable currency effects primarily results from sales denominated in euros.

#### Asia-Pacific

Asia-Pacific net sales increased \$51.7 million, or 67%, in the first quarter of 2017 compared to the first quarter of 2016, primarily due to \$38.3 million in incremental net sales from prior year acquisitions. The Asia-Pacific net sales increase also reflects increased net sales in all of the Electronics segment's and Automotive segment's business units.

#### **Liquidity and Capital Resources**

The Company has historically supported its liquidity needs through cash flows from operations. Management expects that the Company's (i) current level of cash, cash equivalents, and marketable securities, (ii) current and forecasted cash flows from operations, (iii) availability under existing funding arrangements, and (iv) access to capital in the capital markets will provide sufficient funds to support the Company's operations, capital expenditures, investments, and debt obligations on both a short-term and long-term basis.

#### Revolving Credit Facility/Term Loan

On March 4, 2016, the Company entered into a new five-year credit agreement with a group of lenders for up to \$700.0 million. The new credit agreement consists of an unsecured revolving credit facility of \$575.0 million and an unsecured term loan credit facility of up to \$125.0 million. In addition, the Company has the ability, from time to time, to increase the size of the revolving credit facility and the term loan facility by up to an additional \$150.0 million, in the aggregate, in each case in minimum increments of \$25.0 million, subject to certain conditions and the agreement of participating lenders. For the term loan credit facility, the Company is required to make quarterly principal payments of \$1.6 million through March 31, 2018 and \$3.1 million from June 30, 2018 through December 31, 2020 with the remaining balance due on March 4, 2021.

Outstanding borrowings under the credit agreement bear interest, at the Company's option, at either LIBOR, fixed for interest periods of one, two, three or six month periods, plus 1.00% to 2.00%, or at the bank's Base Rate, as defined, plus 0.00% to 1.00%, based upon the Company's Consolidated Leverage Ratio, as defined. The Company is also required to pay commitment fees on unused portions of the credit agreement ranging from 0.15% to 0.30%, based on the Consolidated Leverage Ratio, as defined. The effective interest rate on outstanding borrowings under the credit facility was 2.48% at April 1, 2017. As of April 1, 2017, the Company had \$0.1 million outstanding in letters of credit and had available \$574.9 million of borrowing capacity under the revolving credit facility. Further information regarding the Company's credit agreement is provided in Note 4, *Debt*, of the Notes to Consolidated Financial Statements included in this Quarterly Report.

#### Senior Notes

On December 8, 2016, the Company entered into a Note Purchase Agreement, pursuant to which the Company issued and sold €212 million aggregate principal amount of senior notes in two series. The funding date for the Euro denominated senior notes occurred on December 8, 2016 for €117 million in aggregate amount of 1.14% Senior Notes, Series A, due December 8, 2023, and €95 million in aggregate amount of 1.83% Senior Notes, Series B due December 8, 2028 (together, the "Euro Senior Notes"). Interest on the Euro Senior Notes is payable semiannually on June 8 and December 8, commencing June 8, 2017.

On December 8, 2016, the Company entered into a Note Purchase Agreement, pursuant to which the Company issued and sold \$125 million aggregate principal amount of senior notes in two series. On February 15, 2017, \$25 million in aggregate principal amount of 3.03% Senior Notes, Series A, due February 15, 2022, and \$100 million in aggregate principal amount of 3.74% Senior Notes, Series B, due February 15, 2027 (together, the "U.S. Senior Notes," and together with the Euro Senior Notes, the "Senior Notes") were funded. Interest on the U.S. Senior Notes will be payable semiannually on February 15 and August 15, commencing August 15, 2017. Further information regarding the Company's Senior Notes is provided in Note 4, *Debt*, of the Notes to Consolidated Financial Statements included in this Quarterly Report.

#### Cash Flow Overview

		For the Three Months Ended					
(in thousands)		April 1, 2017		April 2, 2016			
Net cash provided by operating activities	\$	22,943	\$	9,492			
Net cash used in investing activities		(22,098)		(273,219)			
Net cash provided by financing activities		2,938		203,733			
Effect of exchange rate changes on cash and cash equivalents		(928)		4,072			
Decrease in cash and cash equivalents		2,855		(55,922)			
Cash and cash equivalents at beginning of period		275,124		328,786			
Cash and cash equivalents at end of period	\$	277,979	\$	272,864			

Cash Flow from Operating Activities

Net cash provided by operating activities was \$22.9 million for the first three months of 2017 reflecting \$38.9 million in net income and \$20.2 million in noncash adjustments (primarily \$15.1 million in depreciation and amortization) offset by \$36.2 million in net changes to various operating assets and liabilities.

Changes in operating assets and liabilities for the first three months of 2017 (including short-term and long-term items) that impacted cash flows negatively consisted of increases in accounts receivable (\$11.3 million), inventory (\$3.3 million), prepaid and other assets (\$2.0 million), accrued payroll and severance (\$20.2 million), accounts payable (\$3.3 million) and accrued and deferred taxes (\$0.2 million). The increase in accounts receivable was due to increased net sales in the first quarter. The decrease in accrued payroll and severance was due primarily to payouts for the 2016 management incentive plan which occurred in the first quarter.

#### Cash Flow from Investing Activities

Net cash used in investing activities was \$22.1 million and primarily related to the acquisition of the Monolith business (\$14.2 million), net of cash acquired, and capital expenditures (\$12.4 million) both of which were partially offset by proceeds from maturities of short-term investments (\$3.7 million) and a decrease in the entrusted loan (\$0.7 million). The decrease in cash used in investing activities is due to cash used in the acquisition of PolySwitch in the first quarter of 2016.

#### Cash Flow from Financing Activities

Net cash provided by financing activities was \$2.9 million and included \$10.3 million in net proceeds on borrowings and \$0.2 million from the exercise of stock options including tax benefits both of which are partially offset by dividends paid of \$7.5 million and debt issuance costs related to the new credit agreement of \$0.1 million. The decrease in cash provided by financing activities is due to the Company entering into the new credit agreement and term loan credit facility in the first quarter of 2016.

### **Share Repurchase Program**

The Company's Board of Directors authorized the repurchase of up to 1,000,000 shares of the Company's common stock under a program for the period May 1, 2016 to April 30, 2017 ("Share Repurchase Program"). The Company did not repurchase any shares of its common stock during fiscal 2016 or the first quarter of 2017. The Share Repurchase Program expired on April 30, 2017 with no shares repurchased. The Company's Board of Directors authorized a new program to repurchase up to 1,000,000 shares of the Company's common stock for the period May 1, 2017 to April 30, 2018.

#### **Off-Balance Sheet Arrangements**

As of April 1, 2017, the Company did not have any off-balance sheet arrangements, as defined under SEC rules. Specifically, the Company was not liable for guarantees of indebtedness owed by third parties, the Company was not directly liable for the debt of any unconsolidated entity and the Company did not have any retained or contingent interest in assets. The Company does not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities.

#### **Recent Accounting Pronouncements**

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers" (Topic 606) which supersedes the revenue recognition requirements in ASC 605, "Revenue Recognition." This ASU provides a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most current revenue recognition guidance. The guidance permits two implementation approaches, one requiring retrospective application of the new standard with restatement of prior years and one requiring prospective application of the new standard with disclosure of results under old standards. In August, 2015, the FASB issued ASU No. 2015-14, which postponed the effective date of ASU No. 2014-09 to fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted on the original effective date of fiscal years beginning after December 15, 2016. The Company is in the process of performing its initial assessment of the potential impact on its consolidated financial statements and has not concluded on its adoption methodology. While the Company is currently assessing the impact of the new standards, the Company's revenue is primarily generated from the sale of finished products to customers. Sales predominantly contain a single delivery element and revenue is recognized at a single point in time when ownership, risks, and rewards transfer. These are largely un-affected by the new standard. The Company does not expect this new guidance to have a material impact on the amount of overall sales recognized; however, the timing of sales on certain projects may be affected. The Company has not yet quantified this potential impact.

In February 2016, the FASB issued ASU No. 2016-02, "Leases" (Topic 842). This ASU requires lessees to recognize, on the balance sheet, assets and liabilities for the rights and obligations created by leases of greater than twelve months. The accounting by lessors will remain largely unchanged. The ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted. Adoption will require a modified retrospective transition. The Company is currently evaluating the impact of this ASU on its consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, "Intangibles-Goodwill and Other" (Topic 350). This ASU modifies the concept of impairment from the condition that exists when the carrying amount of goodwill exceeds its implied fair value to the condition that exists when the carrying amount of a reporting unit exceeds its fair value. An entity no longer will determine goodwill impairment by calculating the implied fair value of goodwill by assigning the fair value of a reporting unit to all of its assets and liabilities as if that reporting unit had been acquired in a business combination. Because the update will eliminate Step 2 from the goodwill impairment test, it should reduce the cost and complexity of evaluating goodwill for impairment. This ASU is effective for annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2020, with early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company expects to adopt the new standard in 2017.

#### **Critical Accounting Policies and Estimates**

The Company's Consolidated Financial Statements are prepared in accordance with U.S. GAAP. In connection with the preparation of the Consolidated Financial Statements, the Company uses estimates and makes judgments and assumptions about future events that affect the reported amounts of assets, liabilities, revenue, expenses, and the related disclosures. The assumptions, estimates, and judgments are based on historical experience, current trends, and other factors the Company believes are relevant at the time it prepares the Consolidated Financial Statements.

The significant accounting policies and critical accounting estimates are consistent with those discussed in Note 1, Summary of Significant Accounting Policies and Other Information, to the consolidated financial statements and the MD&A section of the Company's Annual Report on Form 10-K for the year ended December 31, 2016. During the three months ended April 1, 2017, there were no significant changes in the application of critical accounting policies.

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

See Item 7A, Quantitative and Qualitative Disclosures about Market Risk, of our Annual Report on Form 10-K for the year ended December 31, 2016. During the three months ended April 1, 2017, there have been no material changes in our exposure to market risk.

#### ITEM 4. CONTROLS AND PROCEDURES

#### (a) Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

In connection with the preparation of this report, management, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of April 1, 2017. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the quarter ended April 1, 2017, our disclosure controls and procedures were effective.

#### (b) Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by Rules 13a-15 and 15d-15 under the Exchange Act that occurred during the quarter ended April 1, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this Quarterly Report on Form 10-Q for the quarter ended April 1, 2017, to be signed on its behalf by the undersigned thereunto duly authorized.

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Littelfuse, Inc.

By /s/ Meenal A. Sethna

Meenal A. Sethna Executive Vice President and Chief Financial Officer (Principal Financial and Principal Accounting Officer)

Date: May 3, 2017

#### **SECTION 302 CERTIFICATION**

#### I, David W. Heinzmann, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of Littelfuse Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e)) and 15d-15(f)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f)) and 15d-15(f)) for the registrant and have:
  - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
